The above fees are a general guide based on the production of straightforward wills, codicils and LPAs and are not intended to be binding estimates. For example, fees will vary if the client's instructions change, or if tax advice or other specialist advice is required. If the fees are likely to vary from those given above, we will advise the client of this in advance of starting work and will provide a full breakdown as to what work is anticipated and what the likely fees will be. All new clients are also subject to an electronic identity check at a cost of £6 each, which will be added to the above costs.
